Testimonials

Tina and her husband were fantastic performers and entertainers for our big holiday event in December, 2016. They were incredibly professional in their interactions with us before, during, and after the event. Tina came to tour our facility to see our venue and discuss our vision for the event. She and her husband showed up early in order to have ample time to set up their equipment and the room for the event. Their interactions with our residents were positive throughout their visit. Tina was very interactive with the audience, singing up and down the aisle and then getting the residents up to dance with her as much as possible. The staff members and family members who were in attendance all commented how enjoyable the show was and how much fun they had with the music choices and the lively singers. Overall we were very pleased with Tina and her husband and hope to have them back in the future!
